

Translating ethics into healthcare practice and research.
Potentials and risks

EACME 2024

ANNUAL CONFERENCE

12-14 SEPTEMBER, HALLE/SAALE (GERMANY)

Medizinische Fakultät
der Martin-Luther-Universität
Halle-Wittenberg

PRELIMINARY
PROGRAM

VERSION: 6TH OF JUNE

**Please note that changes may apply.
The final version will be published
shortly prior to the conference.**

Opening & Plenary | 14.30–16.15

14.30-14.45 Opening

14.45-16.15 Plenary Session I Translating Ethics into Healthcare. Conceptual and Methodological Aspects

Kristine Baroe, Oslo

Marcel Mertz, Hannover

Parallel Session | 16.45–18.15

1.1. SHORT PRESENTATION I	SESSION 1.2	SESSION 1.3	SESSION 1.4	SESSION 1.5	SESSION 1.6
Chair: NN	Chair: NN	Chair: NN	Chair: NN	Chair: NN	Chair: NN
Richter How to elucidate consent-free research use of medical data – a case for „health data literacy“	Sheehan Mistranslations: The Uses and Abuses of Deliberative Democratic Methods	Molewijk Avoiding right and wrong. Using a non-normative dialogical ethics support and action research for a normative aim: fostering psychosocial safety.	Locke Cultural Complications of Translating Healthcare Ethics	Jungkunz Bridging the gap between theory and practice – development and implementation of ethical policies for translational genomic research	Schweer The Gap Between Theory and Practice: Blurring Boundaries of Current Consent Approaches in Health Research Practice
Zimmermann Approaches and challenges of teaching research ethics to biomedical science undergraduates	Kremling „From book to bedside?“ or: Alternatives to drawing an ethical analogy to translational medicine?	Knochel Preparing ICU teams for triage during a pandemic: About transdisciplinary development, implementation, and research	Zhao Translation of Bioethics Across Cultural Borders: Exploring the Adoption of the Four-Principles Approach in Chinese Contexts	Ambrosj Codes of Conduct Should Help (Biomedical) Scientists Navigate Societal Expectations	Ihle-Hansen Patient preferences in geriatric wards, a survey of health care professionals' practice, experience and attitudes
Gloeckler The Ethical Use of Augmented and Virtual Reality in Mental Health Services	Minari The Need for Reverse-Translational Bioethics in Health Research and Healthcare Practice	Reato At Home Ethnography and Interviews to the Double for the construction of the Repertoire of Core Competencies of the Clinical Ethics Consultant in the light of the European and Italian Qualifications Framework	Le Berre Mourning of spouses after deep and continuous sedation until death: ethical issues of a dialogue between medicine and society, in the french context	Fluck Post-trial care in gene therapy clinical trials: ethical implications and their potential impacts on scientific research	Kuiter Should healthcare professionals include aspects of environmental sustainability in clinical decision-making? A systematic review of reasons
Pirson The prospect of direct benefit in first-in-human gene therapy studies in minors - an ethical analysis	Mertz „Full“ health technology assessment (HTA) reports as a device for „translating“ ethics into healthcare practice – observations on the suitability, implementation and reach of ethics in HTA reports	Dittborn Parents and clinicians' experiences with remote paediatric clinical ethics consultation during the pandemic: A service evaluation.	Alex Interdisciplinarity in bioethics and associated challenges	AI An ethical argument to limit financial incentives to clinical trial participants	Kupsch Assessment of decisional capacity. A systematic review and analysis of instruments regarding their applicability to requests for assisted suicide

Parallel Session | 16.45-18.15

1.1. SHORT PRESENTATION I	SESSION 1.2	SESSION 1.3	SESSION 1.4	SESSION 1.5	SESSION 1.6
Chair: NN	Chair: NN	Chair: NN	Chair: NN	Chair: NN	Chair: NN
Schmieg Ethical Guidance in Case Management: A Translational Approach to Support Caregivers and Patients with Chronic Conditions in Palliative Care to prevent 'Moral Distress' and 'Moral Injury'					
Hirose Misuse of ethical terminology reduces trust in vaccines: A case of HPV vaccines in Japan					
Liu An Examination of the Ethical, Legal, and Policy Issues on Direct-to-Consumer Genetic Testing in Taiwan					
Barnhart Echos of Ethics: Translating Disability Bioethical Considerations from Precision Medicine to Digital Twins					

Reception | 18.30

Prize & Plenary | 9.00–10.40

9.00-9.10 Announcement of Paul Schotsmans Prize

9.10-10.40 Plenary Session II Translating Ethics into Health Policies.

Michael Parker, Oxford

Scott Kim, Bethesda

Parallel Session II | 11.00-12.30

2.1. SHORT PRESENTATION II	SESSION 2.2	SESSION 2.3	SESSION 2.4	SESSION 2.5	SESSION 2.6
Chair: NN	Chair: NN	Chair: NN	Chair: NN	Chair: NN	Chair: NN
Inguaggiato Virtue ethics as a tool for translational ethics. A plea for the use of a virtue ethics approach in clinical ethics support services	Spagnolo Parkinson's disease patients with Deep Brain Stimulation (DBS): A qualitative exploration of evolving experiences over time	Kraft Ethical competencies for digitally supported care	Maas Paediatric informed consent procedures – A potential clinical application for Large Language Models?	Burmeister Decision-making & diversity: The limits of Standardized Deliberation in healthcare facilities	Nov-Klaiman Negotiating severity behind the scenes: prenatal testing in Germany
Stange Revealing ideas of the good life in the context of creating advance directives - A qualitative approach	Cassinadri Non-voluntary BCI Explantation: Assessing Possible Neurorights Violations in Light of Embedded and Extended Cognition	Kuehlmeier Translating ethics into practice through competency-oriented teaching and learning: Experiences from the German KOMETH-Learn project	Buhr Use of AI in psychiatry - ethical challenges in theory and practice	Gothan Decision-Making in Gender Affirming Medical Care/Surgery (GAMC/GAS): A Systematic Review and Ethical Evaluation of Guideline Recommendations	Linkeviciute Creating ethics guideline for cancer care during pregnancy – work in progress
Esquerda Ethical considerations in psychiatric euthanasia	Starke Hybrid Minds: Experiential and ethical implications of intelligent neural interfaces	Radvanszky Translation of qualitative interviews. Implementing patient narratives in medical education. Examples from DIPEX Switzerland	Kerasidou Who is the expert in the room? Trust, expertise and the impact of AI on the doctor-patient relationship	Ellerich-Groppe Queering healthcare with digital technologies: How the digital transformation can contribute to diversity- and queer-sensitive healthcare	Gregorowius Mentally ill Women with a Desire to have Children: How Translational Ethics can help to develop Instruments for Preconception Counselling
Karneboge Project ESDA: Evaluation of Supported Decision-Making Strategies for Monoclonal Anti-Beta-Amyloid Antibodies	Vassallo Assessing Cognitive Enhancement	Dierickx Do we achieve anything by teaching research ethics to starting PhD students?	Rudra Leveraging AI-Based Chatbots to Enhance Patient Consent in Healthcare: A Digital Ethical Perspective	Cutas What kind of ties are genetic ties and why does it matter?	Zuijderland Between Existence and Essence: The 'Liminal Being' and 'Sublime Child' in Abortion Ethics
Jungkunz Hospitals as moral actors with institutional duties					

Parallel Session II | 11.00-12.30

2.1. SHORT PRESENTATION II	SESSION 2.2	SESSION 2.3	SESSION 2.4	SESSION 2.5	SESSION 2.6
Chair: NN	Chair: NN	Chair: NN	Chair: NN	Chair: NN	Chair: NN
Mori Japanese Public Medical Insurance System in Crisis					
Weidema The ethical aspects of human organ-on-chip models: A critical interpretative review					
Birchley Emotion, rationality and ethics in „best interests“ decision-making: addressing the Apollonian and Dionysian divide					
Kelam Overview of Ethical Education Among Healthcare Workers in Croatia					
van den Hoven Developing tailored reflection models for research ethics and research integrity trainings: needs, challenges and experiences					

Parallel Session III | 14.00–15.30

3.1. SHORT PRESENTATION III	SESSION 3.2	SESSION 3.3	SESSION 3.4	SESSION 3.5	SESSION 3.6
Chair: NN	Chair: NN	Chair: NN	Chair: NN	Chair: NN	Chair: NN
Asscher Translating ethics into public health: responding to the risks of over-demandingness	Krawczyk Meaningful Inclusion? Influence of Research Institutions on Epistemic Injustice within Patient and Public Involvement	García-Calderó Loneliness experiences of adolescents and young adults during the COVID-19 pandemic: a systematic review	Fasoli Emerging Technologies and Vulnerabilities in Older Adults without Cognitive Impairments: a Systematic Review of Qualitative Evidence	Huxtable Orchestrating Best Interests Decision-Making: A Qualitative Study of Best Interests Decision-Making in Healthcare in England and Wales	Ariffin Exploring the Experience and Perspective of Practice, Teaching and Learning of 'Informed Consent' in the Malaysian Clinical Settings: A Qualitative Study
Terribas The experience of euthanasia in Spain: figures and difficulties of application	Nadler Empowering patient voices: Shaping ethical digital health research together through a collaborative discourse at a stakeholder-conference	Buchberger Professional ethos under pressure: what internal tensions did healthcare workers have to face during the COVID-19 pandemic? Results of a qualitative study with detailed insights into ethical and individual challenges	Nebowsky Care Across Borders: A Practice Oriented Analysis of Vulnerabilities in Migrant Live-in Home Care for Persons with Dementia in Germany and Israel	Le Berre Support for family caregivers in Day Hospital in palliative care: vulnerability and power of grief	Wienmeister How about a (tiny) little bit of informal logic? Promoting moral reasoning skills in students through argumentation theory as a means to translate ethics into healthcare practice
Willem Embedded Ethics in Practice: A Toolbox for Integrating the Analysis of Ethical and Social Issues into Healthcare AI Research	Ceruti The introduction of Research Ethics Consultation Services in Italy. Theoretical-practical reasons supporting the adoption of a cooperative-collaborative approach to ethical issues raised by clinical research	Landeweer Moral distress and the paradox of time	Aleksandrova-Yankulovska Qualitative research in support of empowering participation of children in SIRS research	Parsons Best Interests and Rotten Compromise: exploring the instrumentalisation of P	Steindorff Embodiment as a resource for person-centred and ethical value-based care in the light of VR-supported nursing training
Hirsch Practicing ethical discourse as a means of translating ethics into healthcare practice: Experiences from a participatory teaching project on biomedical enhancement	Potthoff Qualitative health research under ethical review. A comparison between review practice and interventions for improvement by applicants and members of medical research ethics committees in Germany	Kavas Moral Injury Experiences and Perceptions of Self as A Moral Subject of Healthcare Workers Working in and behind the Field in the Earthquakes of February 6, 2023 in Türkiye: Developing Quality Criteria and Solution Suggestions for Moral Resilience	Vinogradova Nursing homes in times of a pandemic: to close or not to close? Reflections on restriction measures during the COVID-19	Howes One big juggling act: Developer perceptions on the ethics of tracking devices in dementia care.	Kiefer Translating ethical fiduciary concepts into health research: How can data fiduciaries contribute to a trust architecture for the research use of health data?

Parallel Session III | 14.00–15.30

3.1. SHORT PRESENTATION III	SESSION 3.2	SESSION 3.3	SESSION 3.4	SESSION 3.5	SESSION 3.6
Chair: NN	Chair: NN	Chair: NN	Chair: NN	Chair: NN	Chair: NN
Verbeke Contributing to a more Coherent and Comprehensive Understanding of the Research Ethics of Deception: an Interview Study with Researchers					
Wilken Ethical implications of integrating new technologies in clinical routine: trust and autonomy in the realm of personalised medicine					
Kriekemans Telehealth in palliative care settings: A systematic review of argument-based ethics literature					
Loute Assessing the ethical implications of using telemedicine to support patients with advanced Amyotrophic Lateral Sclerosis (ALS)					

Plenary, Announcement | 16.00–17.40

16.00-17.30 Plenary Session III Translating Ethics into Clinical Practice

Ellen Fox, Washington

Georg Marckmann, Munich

17.30-17.40 Announcement BENE-Bioethics Education Network Europe (Yesim Isil Ulman, Rouven Porz)

EACME Assembly | 17.45

Parallel Session IV | 09.00-10.30

4.1. SHORT PRESENTATION IV	SESSION 4.2	SESSION 4.3	SESSION 4.4	SESSION 4.5	SESSION 4.6
Chair: NN	Chair: NN	Chair: NN	Chair: NN	Chair: NN	Chair: NN
Gregorowius Translating Ethics into Action: Ensuring Advocacy, Autonomy, and Access in Disability Care	Kovács Pioneering a Novel Unified, Quantitative-Qualitative Method for Heightened Argumentative Rigor in Bioethical Dilemmas	Metselaar Translational Bioethics as a Two-Way Street. Developing Clinical Ethics Support Instruments with and for Healthcare Practitioners	Spitale WHO leads the way? Bridging ethics and practice in social listening and infodemic management	Feeney Genome Editing and non-ideal Justice: the case of Sickle Cell Disease (SCD)	Langmann Endometriosis in Later Life: An Intersectional Analysis from the Perspective of Epistemic Injustice
Thomas What information is important to patients with a family history of breast and ovarian cancer when giving informed consent to genetic testing?	Tirschmann Qualitative methods in participatory research and development projects for health technologies	Rockmann An argument in favour of a modified Four-Topics-Model in Ambulant Ethics Consultation	Ancillotti Development of a public health ethics framework for lighting	Alex Genomic Newborn Screening for Adult Actionable Conditions – Why Not?!	Hempeler Intersectionality as a tool for clinical ethics consultation
Staffa The creation of an Ethical Space within an Italian Territorial Social Health Agency to encourage community welfare.	Aleksandrova-Yankulovska The role of qualitative research in translating ethics within the area of fertility protection	Inthorn Models of Clinical Ethics Consultations as translational tools. Bridging the gap between ethical expertise and clinical practice	Koethemann The concept of ethical governance and its translation into health care practice: Conceptual and empirical insights taking patient organizations as an example	Ayoub Navigating uncertainty in 22q11 deletion syndrome: how healthcare professionals balance hope and realism	Davies „Integrated“ Empirical Bioethics: Who, What, When?
Capulli Research involving informal caregivers of patients with dementia: challenges related to information sharing	Jöst Health Equity and its Instrumental Value: a qualitative analysis of EU, UK, and US allocation guidelines through a relational egalitarian lens	Eijkholt Patient participation in clinical ethics interventions: Justifications and risks_ an international study	Katzer Systematic, but not quality-assessed? The problem of quality appraisal in systematic reviews of reasons – and a possible solution by applying basic argumentative standards	Andreoli Taking the risk. A systematic review of ethical reasons and moral arguments in the clinical use of polygenic risk scores	Timmermann Physicians' responsibilities in relation to environmental and climatic crises. A critical interpretative synthesis
Rajka Characteristics of ethical organizational culture in hospitals: qualitative study with healthcare professionals in Romania					
Hattori A New Approach to Improve Clinical Ethical Competence					

Parallel Session IV | 09.00-10.30

4.1. SHORT PRESENTATION IV	SESSION 4.2	SESSION 4.3	SESSION 4.4	SESSION 4.5	SESSION 4.6
Chair: NN	Chair: NN	Chair: NN	Chair: NN	Chair: NN	Chair: NN
Sandonà Philosophical and theoretical aspects of translational bioethics					
De Clercq Ethical Navigation in Rare Disease Care: Understanding and Acting on Parents' Insights to Improve Quality of Life					
Calleja-Sordo Ethical challenges for uterus transplant					

Plenary & Closing | 11.00-12.45

- 11.00 **Plenary Session IV Translation of Ethics and the Role of Public and Patient Involvement**
 Katja Kuehlmeier, Munich
 Jonathan Ives, Bristol
- 12.30 **Closing of Conference**
